Item 9. Regulation FD Disclosure

Regency Centers Corporation announced yesterday that it has agreed to purchase up to \$150 million of stock from Security Capital Group Incorporated in connection with Security Capital's sale of shares in an underwritten public offering and private sales contracts with certain of the underwriters. Regency will pay the same price per share as the offering price to the public. Based on the \$34.45 closing price of Regency's common stock on the New York Stock Exchange on June 12, 2003, Regency would acquire up to approximately 4,354,000 shares concurrently with the closing of the public offering.

Regency plans to fund the share repurchase in the near term by drawing on its line of credit and over time by reducing the amount so drawn through:

- o accelerating the sale of non-core assets; and
- o additional property dispositions through expanded joint venture activities.

Regency expects that the long-term impact of the transaction will generally be balance-sheet and earnings neutral.

This Form 8-K contains forward-looking statements about the impact of the share purchase. Regency believes that these forward-looking statements are based on reasonable assumptions. However, actual results may be materially different from these forward-looking statements. Any share repurchase and the actual dollar amount of the share repurchase are conditioned on the number of other shares that Security Capital sells in the offering. Uncertainties that could affect

actual results following the repurchase include (1) the timing and prices of asset sales and joint venture transactions and (2) changes in interest rates.

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
